Mushroom Nomenclature Bundle

You have purchased: **One license to use this file in one classroom.**

In addition, by purchasing this file you agree to the following conditions:

This digital file is for your sole use as the original purchaser, to be used in one classroom or other similar educational environment, such as a homeschool.

You may make as many copies as needed for this purpose.

You do not have permission to share or sell this digital file in any form, on any platform on the internet or any other digital method. This includes, but is not limited to, print or otherwise, via email, posting on the internet, sharing sites (even private groups shared by more than one person or teacher), or by any other means. This includes giving it away for free or selling it for any amount of monetary compensation.

Please purchase separate copies of the file for additional classroom use.

If you have any questions about its use, please do not hesitate to contact us.

Instructions:

Preview the file before printing to see which pages you would like to print. This file contains two versions of the nomenclature cards.

Print the file in colour and make as many copies as you need for your classroom use.

You may choose to print some pages in black and white (like the control charts and colouring booklet) to economize on printing costs.

If you print the entire file on a colour printer, the black and white pages are printed in “Rich Black”. This means it is a darker and higher contrast black. However, you will most likely be charged the same rate as a colour copy. Regular black and white printing is more grayscale in appearance.

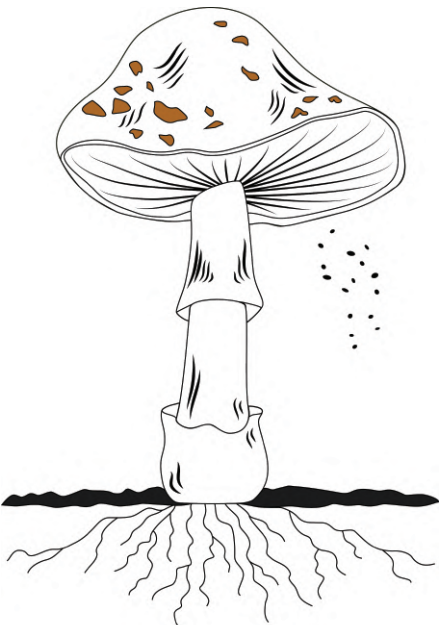

Mushroom Nomenclature Label Cards - Part 1

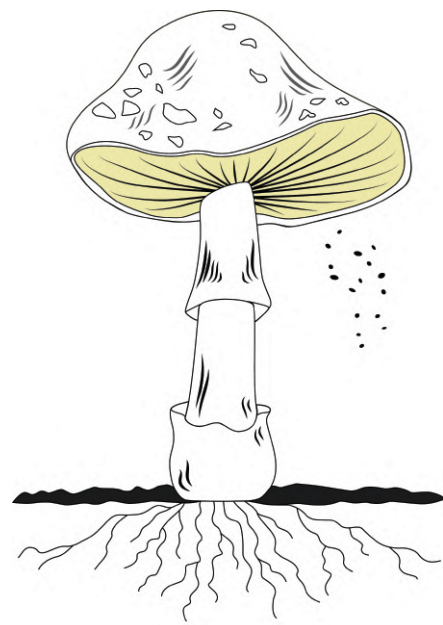

mushroom

cap

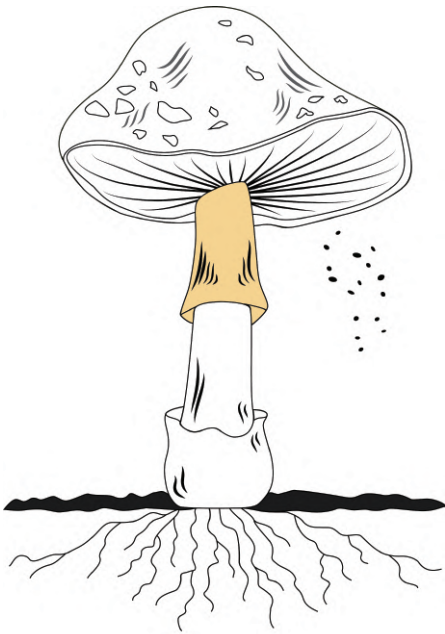

scales

Print this file in full colour for the best results.

Cut the cards out along the shaded lines. This file contains only the picture cards.

Cover Page

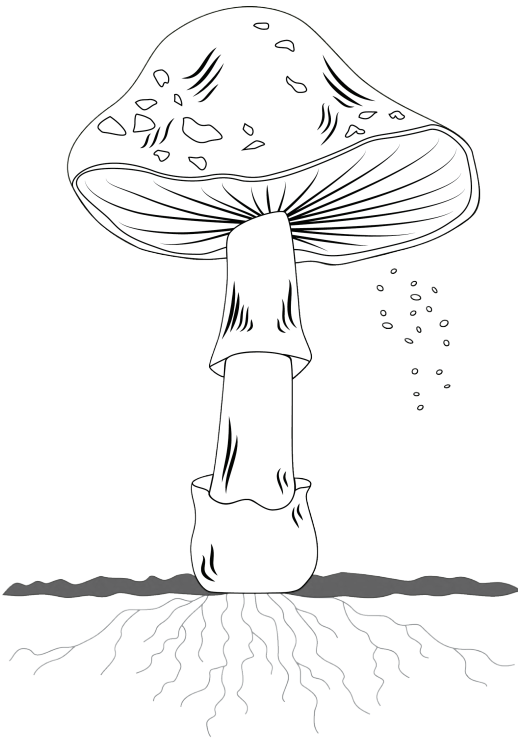

Staple allowance

Staple allowance

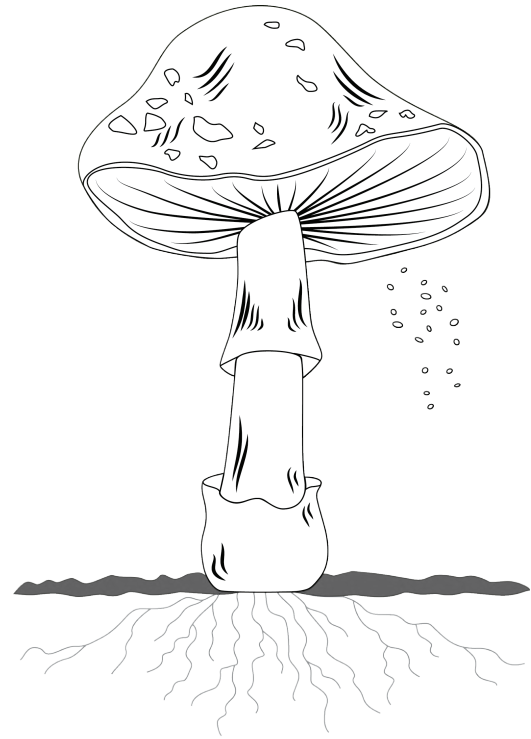

Instructions:

1. Copy as many pages as needed for your classroom use.
2. Cut the booklet pages out along the solid lines. Each sheet makes 2 booklet pages.
3. Do not cut along the dotted lines. They indicate the area that will be covered up when the pages are bound together either by stapling or lacing.
4. Keep all printing and colouring to the right of the dotted line to ensure it will not be concealed under the binding.
5. Alternate image of mushroom top on page 3 can be used for easier colouring of smaller details like the spores.
6. Optional labels can be pasted into pages if a child is not ready for printing yet.
